Innovative-e, Inc. Managing Partner Leads Two Learning Tree SharePoint Executive Seminars in Virginia

Dux Raymond Sy will lead a comprehensive, non-technical seminar in Alexandria, Va. on March 30 and again on April 14 to help organizations increase productivity and efficiency using SharePoint.

ATLANTA — Innovative-e, Inc. managing partner, Dux Raymond Sy, will be leading a one-day SharePoint seminar to help executives and upper-level management improve productivity, increase efficiency and facilitate collaboration within their organization using SharePoint technology. The non-technical, comprehensive executive Learning Tree seminar will take place March 30 in Alexandria, Va. at the Alexandria Education Center from 9 a.m. to 4 p.m. and again on April 14 at the Reston Education Center.

SharePoint is a web-based collaboration technology that empowers organizations to increase worker productivity, reduce information redundancies and streamline document management practices. SharePoint is based on industry standardized web-based solutions and Microsoft Office technologies.

Attendees of the Learning Tree seminar will learn what SharePoint is, how it increases productivity and efficiency and how it offers a measurable return on investment. The seminar will also demonstrate how SharePoint can be used to address common information challenges, including de-centralized storage, non-existent traceability standards and lack of accountability in organizations. In addition, the seminar will provide solutions to help organizations replace intranets, develop project management information systems (PMIS), build web portals, manage e-commerce and adhere to legal compliance standards.

With nearly 20 years of experience in the IT industry, Sy is a leading expert on project management and SharePoint solutions. He is a certified project management professional, as well as author of *SharePoint for Project Management: How to Create a Project Management Information System (PMIS) with SharePoint*. Sy is also an instructor and course author for Learning Tree where he provides in-depth IT training for professionals at leading organizations around the world.

For more information or to register for Learning Tree seminars, visit www.innovative-e.com or www.learningtree.com.
