**Innovative-e, Inc. Participates in the 2nd Annual
2009 SharePoint .Org Conference**

*Innovative-e, Inc. managing partner, Dux Raymond Sy, will share
"7 Ways to Leverage SharePoint for Project Management Success"
at the 2009 SharePoint .Org Conference.*

ATLANTA — The 2nd Annual 2009 SharePoint .Org Conference, developed by SusQtech, will take place March 22-24 at the Sheraton Inner Harbor in Baltimore, Maryland. Dux Raymond Sy, Innovative-e, Inc. managing partner, has been invited to participate as a session speaker. Innovative-e is a U.S.-based business technology consulting and services company that helps clients gain competitive advantage through high-performance strategies.

Sy's presentation, "7 Ways to Leverage SharePoint for Project Management Success," will provide attendees with insight into how SharePoint can be used to address common project management challenges. The conference is designed to equip professionals from associations, non-profits, government entities as well as businesses, with the tools to address communication and collaboration needs using SharePoint, a web-based collaboration technology.

"All types of organizations face inefficient communication practices, poor document management and undefined project collaboration standards, all of which can compromise project success," said Dux Raymond Sy. "SharePoint provides a framework that can empower organizations to create a standards-based project management information system (PMIS) to address these issues."

Dux Raymond Sy is a leading expert on project management and SharePoint. Sy is a certified project management professional, as well as author of *SharePoint for Project Management: How to Create a Project Management Information System (PMIS) with SharePoint*. Sy is also an instructor and course author for Learning Tree International where he provides in-depth IT training for professionals at leading organizations around the world.
