**Innovative-e, Inc. Managing Partner Spurs
Southern Polytechnic Students Toward Life-Long Learning**

Southern Polytechnic alumnus and author, Dux Raymond Sy, speaks with students about the importance of life-long learning.

ATLANTA — Southern Polytechnic University has invited author and SharePoint expert, Dux Raymond Sy, to speak with students about the importance of life-long learning. The event, titled "Life after SPSU: The Career Path of an SPSU Graduate," will take place on Oct. 27 at 4 p.m. -5:15 p.m.

"At Southern Polytechnic University, we always try to convey to our students the need to embrace life-long learning," said associate professor Dr. Thomas J. Fallon, MCAD, MCP. "Dux's career path is important to the current student body because it shows a clear commitment to life-long learning, and I believe, seeing the success of one of our university's graduates is quite inspirational to the students, as well as to the administration and faculty."

With nearly 20 years of experience in the IT industry, Sy is a leading expert on project management and SharePoint solutions. He is a global entrepreneur and certified project management professional, as well as the author of "SharePoint for Project Management: How to Create a Project Management Information System (PMIS) with SharePoint." Sy graduated from Southern Polytechnic University with a bachelor's degree in telecommunications engineering. Sy also holds a bachelor's degree in electronics engineering from De La Salle University and a Project Management Professional certification.

Currently, Sy is a managing partner for Innovative-e, Inc., as well as an instructor and course author for Learning Tree International where he provides in-depth IT training for professionals at leading companies around the world.
