Learning Tree International Executive Seminars Empower Organizations to Increase Productivity and Efficiency with SharePoint

Innovative-e, Inc. managing partner, Dux Raymond Sy, leads comprehensive, non-technical SharePoint seminars in Atlanta and New York.

ATLANTA — Global entrepreneur, author, Learning Tree International instructor and Innovative-e, Inc. managing partner, Dux Raymond Sy, will be leading two 1-day SharePoint training seminars to help executives and upper-level management improve productivity, increase efficiency and facilitate collaboration using SharePoint technology. The non-technical, comprehensive Learning Tree International executive seminars will take place in Atlanta, Georgia, on Oct. 28 and again in New York, New York, on Oct. 30.

SharePoint is a collaborative platform based on industry standardized web-based solutions and Microsoft Office technologies that empowers organizations to increase worker productivity, reduce information redundancies and streamline document management practices.

Attendees of the Learning Tree International seminars will learn what SharePoint is, how it can benefit an organization and how companies can measure a return on investment. The seminars will also demonstrate how SharePoint can be used to address common information challenges, including de-centralized storage, non-existent traceability standards and lack of accountability in organizations. In addition, each seminar will provide solutions to help companies replace intranets, develop project management information systems (PMIS), build Web portals, manage e-commerce and adhere to legal compliance standards.

With nearly 20 years of experience in the IT industry, Sy is a leading expert on project management and SharePoint solutions. He is a certified project management professional, as well as author of *SharePoint for Project Managers: How to Create a Project Management Information System (PMIS) with SharePoint*. Sy is also an instructor and course author for Learning Tree International where he provides in-depth IT training for professionals at leading companies around the world.

For more information or to register for the events, visit www.innovative-e.com or <https://www2.learningtree.com/promos/spseminar.aspx>.
